PROFILE SUMMARY

Passionate Computer Science graduate specializing in UI/UX design and full-stack development. Skilled in Figma, HTML, CSS, JavaScript, Bootstrap, A-Frame, Python, Django, and PHP. Experienced in building AI chatbots, VR learning environments, and inventory systems. Seeking opportunities to apply my expertise in impactful real-world projects.

WORK EXPERIENCE

JULY 2024 - AUG 2024

Ethiopian Chamber of Commerce & Sectoral Associations

ux/ui,full stack

- Developed and implemented a memorandum management system for the Ethiopian Chamber of Commerce, enhancing interdepartmental communication. Designed a user-friendly interface for memorandum display and forwarding, with integrated session management, comment submission, and Ethiopian calendar support.

Metro Foreign Employee Agency oct 30,2024

ux/ui,full stack

- Developed a web-based CV generation and management system that collects user information and automatically creates CVs in five formats. The system stores files in multiple types and sends them directly to a Telegram group. Built with HTML, CSS, and JavaScript for a responsive and user-friendly experience.

Ambassader Foam plc jan 15,2025 -present

ux/ui,full stack

- Developing a comprehensive inventory management system for Ambasader Foam Company to streamline stock tracking, sales records, and returns. The system supports five roles—General Admin, Stock Manager, Merkato Shop, Efoyta Shop, and Fabrica Manager—each with a tailored interface. It ensures real-time data accuracy and enhances operational efficiency.
